## Seize your opportunity at the Open House @ Risk Center Quant Institute!

As a student of mathematics, engineering, physics or computer science, you know the power of numbers. The Quant Institute, part of the Deutsche Bank Risk Center invites you to come and optimize your individual career opportunities.

When? June 5, 2014, 10:00 am to 5:00 pm

Where? Deutsche Bank Risk Center  
Hardenbergstrasse 32, 10623 Berlin

Come and visit us, and you will have a unique opportunity of getting to know us, while learning how we answer key questions in quantitative risk analysis, such as:

- How likely is it that a loan cannot be paid back?
- How much money would be lost if a major economic shock occurred?
- Where could share prices be in 6 months' time?

On top of that, the Open House will allow you to:

- Get an insight into the work of selected personnel from the Deutsche Bank Quant Institute & assess for yourself the suitability of a quantitative role for your own career development
- Work in a team to resolve a case study focusing on a specific quantitative risk area
- Participate in a final quiz & get the chance to win a prize

Choose a partner and a name for your team, and you are ready to go!

Apply by May 18, 2014, by email to [riskcenter.recruiting@db.com](mailto:riskcenter.recruiting@db.com), subject line "Open House". Please enclose your CV, a cover letter, your transcript summary, any final study degrees to date, as well as your school leaving certificate.

As the case study and the quiz will be solved in groups of two, participation in teams of two is strongly encouraged. Individual applications are also welcome. Please note that the number of participants at the event is limited.

We look forward to meeting you!
